

The Inn at Black Star Farms is striving to provide calm in the midst of rapidly changing circumstances while focusing on the health and safety of our staff and guests. We aim to provide a quiet respite for those looking to get away.

At this time, our Inn is open without date restrictions. Our standard operations are being adjusted appropriately in both housekeeping and food service practices. Breakfast will still be prepared by our talented culinary team and delivered to your room each morning. We will offer early morning coffee, a prepared hot entrée, and an ala carte menu for cold items (yogurt, fruit, bread, etc.). In place of our regular evening hospitality hour gathering, we will prepare individually wrapped hors d'oeuvres, and provide a single bottle of wine per two-night stay from our limited, Inn wine menu. Additional wines may be purchased through our tasting room and delivered to your room.

In consideration of the circumstances, if you feel the need to change your travel plans, we are happy to facilitate reservation changes and cancellations. For reservations scheduled to arrive between today and April 6th, we are offering full-deposit refunds. Please [contact the Inn](#) if you would like to explore options for reservations beyond April 6th. We are happy to answer any questions you may have regarding a change to your reservation.

Due to Governor Whitmer's statewide mandate, our tasting room is open for retail sales only. Many other wineries in our area remain open for retail purchases, but the details of closures may change in the coming days or weeks. We encourage you to reach out to individual locations you may want to visit.

Eat-in dining at restaurants across Michigan has been suspended, however many establishments in our area are offering take-out and curbside service. We will do our best to provide you up-to-date information on local businesses, but again encourage you to reach out and confirm the status of services being offered. We have cancelled all dining events through April 6th.

At the Inn, we have increased our cleaning of all public spaces and are taking precautions for the safety of guests and staff alike. To this end, we have increased the frequency of sanitation to our practices in guest rooms, public bathrooms, hallways, foyer, lounge and beyond.

Please don't hesitate to [contact the innkeeping team](#), 231-944-1251, if you have any questions or concerns about your reservation.
